Sample Repair Ask Sheet

SAMPLE -- format illustration only.
Figures below are published New York City cost-guide ranges, not a real property and not a contractor bid.

How to read this sheet: each inspection finding is matched to a published local range. The Ask is set at typical (the average of published guides). A blank Ask means the guides published no figure for that item -- get a contractor quote for that line. This sheet is a number for the negotiation, not a bid.

Item (example finding)	Published NYC range	Ask (typical)
Water heater replacement (tank)	\$1,200 - \$3,800	\$2,400
Electrical panel upgrade (100-200 amp)	\$1,800 - \$3,500	\$2,650
Central AC unit replacement	\$7,000 - \$15,000	\$11,000
Pipe repair (accessible run)	\$500 - \$1,500	\$1,100
Chimney flashing reseal	--	--

Sources: published cost guides including Angi/HomeAdvisor and local pro guides, as of Aug 2026. Ranges are metro-level (New York City), not ZIP-level. Sample prepared October 2026. -- EstimateGuard
